Work Experience

Senior Designer

Apr 2025 - March 2026

REMOTE - IN-HOUSE

AstraOS

- Led the visual direction of the product, defining a distinctive design language based on 3D-driven interfaces and motion systems.
- Designed and developed advanced UI experiences integrating 3D assets (Blender / Spline) into product interfaces.
- Built visual systems that improved clarity when communicating complex Web3 concepts.
- Optimized design workflows and elevated overall product quality across the team.
- Created motion and visual assets that enhanced onboarding and user engagement.

Visual Designer

Apr 2022 - Jan 2024

REMOTE (USA)

Astronomic Agency

- Designed onboarding experiences that simplified cybersecurity concepts through visual storytelling.
- Created custom 3D icon systems to represent technical services in a clear and engaging way.
- Developed motion graphics for subscription flows and key product interactions.
- Collaborated with product and development teams to deliver cohesive UI solutions.

Graphic Designer

May 2017 - Mar 2022

SANTIAGO, CHILE

CABALA

- Developed brand identities and digital assets for multiple clients across industries.
- Contributed to UI/UX projects through wireframing, prototyping, and interface design.
- Ensured visual consistency across marketing and digital platforms.
- Delivered high-quality assets using Adobe Creative Suite and Figma.

Selected Projects

🕒 Utexo — Fintech Brand Website → [utexo.com](#)

🕒 Minah — Web3 Platform Experience → [minah.io](#)

🕒 AstraOS — 3D-driven Web3 Interface System → [astraos.io](#)

🕒 Soundbreak — AI Music Platform → [soundbreak.ai](#)
